March 2014

Recreation News

Winslow – March was a busy month for our Recreation Coaches and players as we had 7 travel basketball teams that took part in 37 different tournaments through out the state. Some of the tournaments had a round robin format in which every team was guaranteed a certain number of games and a champion was not crowned and other tournaments played with pool play on the first day and a single elimination tournament on the final day with one team being crowned the champion. Our kids had a chance to play a lot of basketball with the hope that everyone had fun and improved on their skills.

The ice skating rink was closed officially with the last big storm we had and we had a lot of people using the rink to either free skate or to play a little hockey. Hopefully next winter will be better with less snow and more cold weather so that the ice will stay hard. Again, thanks to Ray Caron and the Winslow Fire Department for their help with the rink.

We are gearing up for the summer programs as we will have our Summer Fun Camp run by Tracey Welch and Sue Simpson and we will offer a variety of sports camps all summer long. Your child will come home with 2 separate papers to remind everyone that registration will be June 3rd and June 5th from 5:00 pm until 8:00 pm in the commons of the Winslow Elementary School.

Think Spring and warm weather. Spring is right around the corner.

Respectively submitted,

Vaughn Clark
