

January 2014

Recreation News

Winslow – January was a busy month as we were dealing with the outdoor skating rink that needed a lot of care. The weather didn't help us much as we had a lot of warm days with way too much rain. When the weather turned cold the ice got hard and we had some people that used the rink. Hopefully next winter will be better to make ice.

Our Recreation Basketball program ended for the first and second graders on January 25th with the Skills and Drills practice and that was followed by a pizza party for the 2 varsity coaches, high school players, the volunteer coaches, parents, and last but not least the future basketball players for Winslow High School. The first and second graders really looked up to the High School kids that helped them all year and some day these kids will be the ones helping others. Thank you to coach Welch and Coach Browne and everyone else for making this a positive experience for everyone.

The rest of the basketball program is still going on and the second phase of recreation basketball will start with Travel Basketball that will end some time in March. Good luck to all teams that will continue to play basketball in Winslow.

Good luck to Coach Welch and Coach Browne and all the High School players as they enter tournament play in the coming weeks.

Respectively submitted,
