Dangers of
Marijuana Class
Winslow Junior
High School

On 03-15-12 I responded to Winslow High School for the report of a student with a knife in his possession. I located the student and discovered the above knife in the student's possession. The student stated the knife was for her personal protection. The student was suspended for ten days and the knife was turned over to the parents of the student.

On 03-19-12 I discovered the above drugs located in a student's locker. It contained 4 cigarettes, a lighter, a marijuana joint and a twenty dollar bill. All of the items were hidden in a hollowed out speed stick. The student was referred to a diversion program due to it being his first offense.
